

Ophera Monitor

Through design, colour and technology, the Ophera recessed video-audio door entry monitor has been conceived to meet all possible requirements. With a high definition 3.5" LCD TFT colour screen, a swivel mount display to allow viewing from a range of angles, three surround colours and an intercom module included with each monitor, Ophera blends effortlessly into the modern home or office.

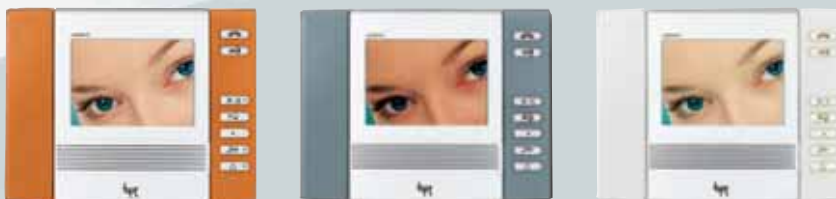

Ophera has sleek dimensions of just 158mm wide, 124mm high and 16mm deep (back box 55mm deep) and is fully compatible with the BPT 2 wire and CAT5 systems, X1 systems and System 300.

Each Ophera monitor comes with:

- Ophera colour monitor and embedding box
- 3 surround colours - White, Orange and Arctic Blue
- Intercom module
